Engine: **3.2 Litre Diesel**

Age: **2017 / 17 Plate**

Transmission: **Automatic**

Colour: **Orange**

Mileage: **136000 miles**

Body: **4 door Pickup**

This 2017 Ford Ranger 3.2 TDCi Wildtrak is a capable four wheel drive vehicle that combines rugged performance with practical daily comfort. As a Wildtrak derivative, this four door model is powered by a 3.2 litre diesel engine paired with an automatic transmission, making it well suited for both work and leisure. The interior is equipped with dual zone electronic automatic temperature control, including climate control, to keep the cabin comfortable in all weather conditions. Drivers also benefit from heated front seats and a Bluetooth handsfree phone system for added convenience on the road. Practicality is further enhanced by automatic headlights and rear parking sensors to assist with manoeuvring.

With a towing capacity of 3500 kg, this vehicle is built to handle heavy loads with ease, setting it apart from lighter alternatives. The combination of its powerful engine and four wheel drive capability provides reliable performance across various terrains. Furthermore, this model sits in a low insurance group, which helps to manage the ongoing costs of ownership compared to other vehicles in its class. These features make it a sensible choice for those who require a robust and versatile truck that does not compromise on essential modern equipment.
